Re: Request for Confirmation - FCC Rule Section 90.187(d)(1)(ii)(D)
Frequency Coordination Procedures Associated with
Non-Compliant Wideband Licenses

Gentlemen:

On November 4, 2015, the Land Mobile Communications Council (“LMCC”) submitted a Request for Confirmation regarding the above-referenced rule section¹ which states, “[A]fter January 1, 2013, licensees with an authorized bandwidth exceeding 12.5 kHz will not be deemed affected licensees, unless the licensee meets the efficiency standard set forth in § 90.203(j)(3) or the licensee was granted a waiver of § 90.209(b).” The request was submitted to verify that the FCC’s certified frequency advisory committees (FACs) are performing their responsibilities in compliance with this rule.

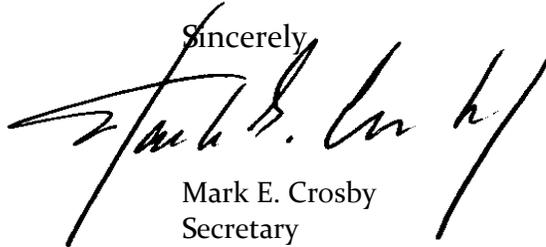

This letter informs the Commission that, pending the FCC’s response, both B/ILT and Public Safety FACs understand that they have authority to perform frequency coordination activities in compliance with the provisions of this rule section; that is, licensees whose authorizations report a non-compliant wideband emission designator

¹ See letter dated November 4, 2015, sent to Admiral David G. Simpson, Chief, Public Safety and Homeland Security Bureau, and to Mr. Roger Sherman, Chief, Wireless Telecommunications Bureau, from Mark E. Crosby, Secretary, LMCC.

only are not being recognized as affected parties for purposes of exclusive use channel analyses.²

We look forward to hearing from you, and please contact us if we may provide further information regarding this matter.

Sincerely

A handwritten signature in black ink, appearing to read "Mark E. Crosby". The signature is fluid and cursive, with a large initial "M" and a long, sweeping underline.

Mark E. Crosby
Secretary

cc: LMCC Membership
David Furth
Tracy Simmons
Roger Noel
Scot Stone

² LMCC also wishes to clarify in response to a member request that licensees who properly installed narrowband equipment and added the narrowband emission designator to their license would still be able to delete the wideband emission designator as part of their next renewal or modification application.
